Mines and Mining Stocks

UTAH COPPER'S

More Than \$350,000 to Be Disbursed by Bingham's Youngster Bonanza.

The initial quarterly dividend of 50c a share was declared by the executive com-

mittee of the Utah Copper company, at Colorado Springs, yesterday morning. It will be paid Sept. 30 to shareholders of record Sept. 20. Such was the word received by General Superintendent Robert C. Gemmell from General Manager D. C. Jackling during the day. It was also announced that the quarterly statement would be issued Aug. 1. The Utah Copper company has 680,000 shares of convertible stock, which, now that the company has 600,000 shares of convertible stock, which, now that the bonds draw, will undoubtedly be taken up before the books close on the dividend. The company also has 15,000 shares of stock that can be disposed of whenever the company sees fit to do it. This would make a total issue of 750,000 shares. The dividend will most likely be paid on 735,000 shares and thus call for the disbursement of \$365,500.

By the end of the Present week the

COPPER STOCKS IN **BOSTON AND NEW YORK**

Following is the daily market commen of Paine, Webber & Co., Boston, togethe with the range of prices of copper stocks and other Boston listings in which the west is interested, as well as a similar report on New York curb transactions, by James A. Pollock & Co., and from which it is secured for use in this de partment of The Herald.

Boston, July 27 .- The market opened strong and active this morning, but soon began to sag on profit taking. At low prices it got very dull and soon the trad-ers began to buy back their stocks. Extracts of Taft's speech are out and show no radical sentiments. We will have a traders' market tomorrow with stocks a purchase on any little reactions. Adven-ture is still acting well and good people consider it the best speculation on the

Pope-Hartford

We have one Touring Car on which we can make immediate delivery. You surely owe it to yourself to thoroughly investigate this car before purchasing a motor car.

The 1908 POPE-HART-FORD is up to the minute in every particular, and is one of the most popular cars on the American market today.

TOM BOTTERILL AUTOMOBILE CO.

62-64 West Third South.

will have the eleventh section in steady commission and it will not be long until the entire plant of twelve 250-ton sections will be running. To go on a substantial dividend basis within eighteen months after getting under headway and that before the reduction works is in full commission, is something not heard of every day. But that is what has happened to Litah Conthat is what has happened to Utah Copper, and it is safe to say that the rate of dividends will be materially increased next January, or whenever the first quarter's distribution for 1909 is made, and particularly if the price of copper moves up a cent of two a pound.

Selling value, \$31,974.75. Bathing is at its best; bathe now, nd you'll keep on bathing at Saltair.

"The Nevada Douglas is also making a wonderfully fine mine, and the amount of rich chalcocite ore that is eing developed at depth is truly astonishing. I was all through the property on this trip and the showing that is there being made must be highly gratifying to the management. It is no longer a question as to whether a mine exists or not, it is more a matthis and other properties of the district just now that railroad connection and smelting facilities be provided. These are now an imperative necessity, and

that the camp will soon get both is certain, for they must come.
"I was told while at camp that preparations are now being made for the SALT LAKE OPERATORS inauguration of a broad campaign at the Bluestone, the De Lamar bonanza, and I also heard good reports from Western Nevada, but concerning the latter you had better wait for the return of Manager Morris M. Johnson, who, I understand, was just going into camp when I got ready to leave. I can say, however, that the district is picking up fast and it is going to make a noise in the mining world, just as sure as you are born."

Took in Fairview, Also.

From Yerington Mr. Humphries took a run into Fairview and had a look through the Nevada Hills. He expressed the opinion that the mine was a big one and that it would go to the deep. The only thing that surprised him was that the mine had not been opened to a depth of at least 1,000 by this time. He added, though, that the faulting system had been learned and it had been practically proved that the ores would go to the deep. Sulphides are already in evidence, and, now that the management has decided to pound that will be little short of sensational as development progresses.

"I like the looks of the Fairview district," said Mr. Humphries, "and, while the Nevada Hills is the one big mine of the camp at the present time, I am sanguine that several big properties will eventually be made there. I was told of leases in the camp that were doing well and by and by the companies are sure to get down to business and make bonanzas of what are now only good prospects."

Ore and Bullion. Ore and bullion settlements in this city yesterday, as reported by McCornick & Co., amounted to \$85,000, as follows: Silver, lead, gold and copper ores, \$25,000; base bullion, \$60,000.

OGDEN SMELTER IS **GETTING UNDER WAY**

East Crown Point sold at 5c and back to 4c a share yesterday. Emma Copper since visiting the property, returned with Mr. Humphries yesterday morn- at \$4 and Prince Consolidated at \$1.15, buyer sixty days.

Twenty-five cents was bid for Consolidated Jefferson, 14½c for Demijohn and 16c for Mineral Flat, while Ohio Copper was quoted at \$2.95 at \$3.05, Old American at 20c at 24c, with Uintah Treasure Hill an offering at 17½c. A broker stated during the afternoon that 1,000 shares of Ohio Copper had been purchased for eastern account at \$3 a share, but no record of the transaction was made on the exchange.

TWO TINTIC COMPANIES FORMALLY DISSOLVED

Application was made to the district court yesterday for the dissolution of two of the Jesse Knight Mining companies. One is the Juab Mining company, with a capital stock of \$250,000, ter of concern to the management of and the other the Plutus Consolidated Mining & Milling company, with a capital of \$300,000. The first distributes among its stockholders assets valued at \$13,800, and the latter \$30,000. These properties will be found in another corporation by and by.

TAKING UP COAL LANDS near future.

Castledale, July 25 .- J. H. Mays, the Salt Lake City attorney and mining man, spent a few days this week at Cedar creek. Mr. Mays and a company of Salt Lake capitalists have made applications for eighteen claims of coal

camp will be started by these capitalists, as the properties are good ones.

Mining Notes.

Four cars of ore from Utah mines and three from Nevada mines were released

three from Nevada mines.

Manager Solon Spiro of the Silver King Consolidated came down from the Park Saturday night to remain over Sunday at home. He returned to camp yesterday morning.
Superintendent Jackson McChrystal of

the Gemini says that the big pumps being placed in commission at the property are performing their functions perfectly and that it will be only a matter of a few days now until mining at depth is L. A. Jeffs, the well known mining man

and engineer who has been laid up for several months with a bad knee, and who has been out of the hospital for a few weeks only, will leave for his old home at Rockland, Mich., today for a Manager P. D. Delmas of the Delmas Copper company states that a winze is now being sunk in fine ore from the up-per to the lower tunnel and that it will be only a short time till he is in the market with another two-carload lot of ore that will average better than 15 per

power gasoline hoist.

Just think of it, reader, and consider what such a movement means to actual development work. While we have had no perceptible boom in the town, all this activity can be told by the paid freight bills at the Pioche freight depot.

Right now there is a great conference being held by those in the proper position on the Sait Lake road, considering the immediate extension of their Pioche-Callente branch to the Prince mine, passing on its course, as proposed, the Ely ing on its course, as proposed, the Ely Valley properties, the great Highland dis-trict, the Demijohn, the Golden Prince and many other properties of equal merit.

Smelter and other reduction plants are
seriously considered. An electric
light plant, also, to be located at Bullionville, is one of the enterprises of the

TO MINE NEAR PARIS.

Fine Prospects in Southern Idaho to Be Operated.

A considerable amount of work has been done in opening up the Cedar creek coal claims. It is expected that in the not distant future a large coal.

Men with means to do the work they map out have become interested in the mining discoveries made near Paris a year ago by Charles Innes and George W. Nebeker, says the Montpelier, Idaho, Excamp will be a large coal.

aminer.

J. H. Eversoll, manager of the Great American Importing Tea company; Andrew Madsen, superintendent of the business of Jesse Knight, and L. W. Johnson of Parvo, a mining expert, have investigated the properties, and are so pleased with the showing that they have secured control already of twenty-three claims.

Four cars of ore from Utah mines and three from Nevada mines were released from the Pioneer sampler yesterday.

Frederick Lyon, assistant managing director of the United States company, is over from California looking after matters on this end of the line.

There were released from the Taylor & Brunton sampler yesterday twenty-four car loads of ore from Utah mines and three from Nevada mines.

With the showing that they have secured control already of twenty-three claims, and have organized a company to go ahead with the development.

The company was organized last Tuesday and was incorporated under the laws of the state of Idaho. It is capitalized at \$50,000, with 1,000,000 shares of the par value of 5c each. The board of directors will conduct the affairs of this company for the first year of its existence and will consist of Andrew Madsen, W. D. for the first year of its existence and will consist of Andrew Madsen, W. D. Passey and L. W. Johnson of Parvo; A. C. Candland of Pleasant Grove, J. H. Grimmett, J. Russell Shepherd and Charles Innis of Paris, and B. F. Woow-

Grimmett, J. Russell Shepherd and Charles Innis of Paris, and B. F. Woowward of Spanish Fork, Utah. Andrew Madsen is the president, J. H. Eversoll, secretary and treasurer, and L. W. Johnson, manager.

The company will be known as the Paris Boulder Mining company, with head offices over the bank building in Paris, Ida. L. W. Johnson says that there is some good country here and they have twenty-three claims, and during the next twelver months will spend several thousand dollars in developing these claims. There is good mineral on the surface showing iron, copper, lead and silver in large quantities, as well as good indications of gold.

Mr. Johnson, the manager, has been in the mining business for fifteen years and understands the business thoroughly. He will leave for Parvo this week, where he will spend the next two weeks in completing his arrangements to take up the work here in Paris and push it with a vigor.

used in transporting ores from the mines to the smelting plant at Luning, forty miles distant.

Dr. Burt reports that the materials and equipment for the smelter have been pur-chased and that a portion of it is al-ready on the ground. It is designed to

ready on the ground. It is designed to build a matting plant of 150 tons' initial capacity, and he states that there is now more than \$1.50,000 worth of ore already blocked out and awaiting treatment in the property of the Lodi Mines company alone. He hopes to have the smelter ready for business in four months from now, or by the first of December.

The interesting feature of this business locally is found in the fact that the property of the Lodi Gold'& Copper company, of which Jacob Evans is president, is located adjoining the Lodi Mines company's possessions on the north and covering the same lode, while the Lucky Girl company, another local corporation with James Christianson, state treasurer, as

doctor, isn't it best to go to one who will tell you all about your trouble and not charge you for it? Then when you know positively what alls you, isn't it best to know just what it will cost you to get weakness is going backward instead of forward, I want him to come and let me show him how I am taking broken down well? Certainly it is. If you were going to pay out money for something else, you wouldn't do it unless you knew how much you had to pay, and what you were going wreeks of humanity every day of my life and fixing them up as good as any man of their years. I don't care what has caused the trouble nor what has failed to cure them. I can cure them and make them better and stronger than they ever you had to pay, and what you were going to get for it. This is the way I run my business—on a strictly business basis. You're every bit as wise as I am when you commence treatment with me. I examine you and tell you all about your trouble, and it doesn't cost you a cent. Then I tell you how I'll cure you, how long it will take and just what it will cost.

\$5.00- I was the first expert physician who offered my services for \$5.00. Others since have come out with ads, imitating my methods, but when you called on them you were asked unreasonable fees. If you will stop and think, you will come to me and **BLOOD POISON**

VARICOCELE

because some other specialist has

Just because some other specialist has failed to cure you is no good reason why I should fail. My treatment for MEN'S WEAKNESSES and other diseases is as different from other specialists' manner of treatment as day is from night.

Cured by absorption; no pain. The en-larged veins are due to mumps, bicycle or horseback riding, disease, etc. In time it weakens a man mentally as well as physically. I will cure you for life or make no charge.

NERVOUS DEBILITY

Cured in a few weeks. Improvement from the start. If you suffer from loss of energy and ambition, feel tired when you arise in the morning, lame back, dizziness, spots before the eyes, and feel you are not the man you once were, I will cure you for life. HYDROCELE

Cured by absorption; no pain; no loss of time. Why suffer longer when you can be cured in a few hours at a moderate cost? Call and consult me at once, and I will convince you of the superiority of our New System Treatment over any

other method.
You May Pay Me by the Call, Week,
Month, or When Cured.
IF OUT OF WORK,
I WILL GIVE YOU CREDIT. Need of Any Man Suffering a Single Day Longer. I Will CURE You Almost for the Asking Now.
